

REMARKS

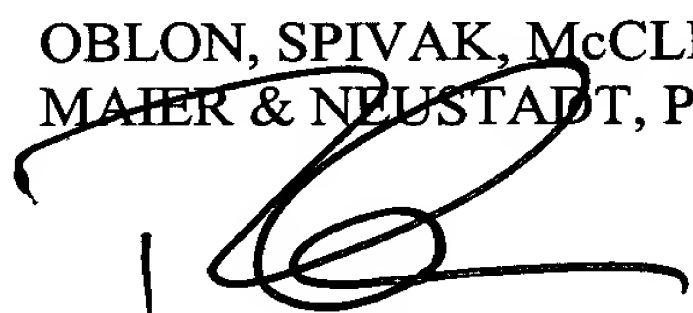

Rejected claims 21-25 have been cancelled.

Applicants appreciate the indication of allowability for Claims 26-31. It is believed that the double patenting rejection has not been applied against these claims, as they are indicated as allowed. If the double patenting rejection is applied thereagainst, Applicants would traverse this rejection as the allowed claims relate to high dielectric materials rather than the typical subject matter of the "Jaguar" cases listed in the Official Action.¹

Accordingly, it is respectfully submitted that this case is in condition for allowance. Early notification to this effect is respectfully requested.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
